**COURSE DESCRIPTION:**

This is a Foundation Course in the General Education Program. It is a physical science laboratory course in which students will experience the inquiry based, systematic approach to problem solving that characterizes the natural sciences. The following Strands and Goals of the General Education Program will be addressed by this course:

Reading, Writing Speaking and Listening Across the Curriculum  
Critical Thinking / Problem Solving  
Computer and Information Technology  
Moral / Ethical Issues

This is the second chemistry course in the Environmental Science and Policy based on general chemistry sequence. It is intended for Environmental Science and Policy Major, Physical & Applied Science majors, as well as related disciplines who need a chemistry based, introductory level, course.

**COURSE OBJECTIVES:**

This course will provide students with the knowledge and skills to:

1. Utilize scientific reasoning to solve problems. Apply the scientific method and critical thinking
