COLLEGE OF TECHNOLOGY
BASIC COURSE INFORMATION**

COURSE TITLE: Interactive Web Design II

COURSE NUMBER: DSN 326

I. MAJOR INSTRUCTIONAL OBJECTIVES:

Objective A: Demonstrate the ability to create an dynamic interactive web site.

- A-1. Demonstrate the ability to create interactivity.
- A-2. Demonstrate the ability to write ActionScript functions.
- A-3. Demonstrate the ability to create dynamic interactive web sites.

Objective B: Learn the efficiencies of dynamic content.

- B-1. Learn how to load images and text at runtime
- B-2. Learn secondary software
- B-3. Learn the advantages and disadvantages of dynamic content.
- B-4. Learn project management

Objective C: Learn how to present content effectively.

- C-1. Demonstrate ability to clearly communicate ideas
- C-2. Demonstrate ability to properly use dynamic content
- C-3. Demonstrate ability to create dynamic and static content within the project

II. SUPPLEMENTAL OBJECTIVES:

- 1. Be familiar with other applications that designers use while creating sites.
- 2. Use existing skills from other classes and apply them to web design.
- 3. Develop an 'eye' for good design and learn how to critique websites as it pertains to design and functionality.

III. CLASS PARTICIPATION:

Students are expected to attend class and participate actively and in a positive way. Questions and relevant observations are encouraged and enrich the experience of the entire class. Computers in the classrooms are intended to be used as tools to enhance the students' learning experience. Instant messaging, gaming, emailing, and surfing the web are distractions to the student, the surrounding students, and the instructor and constitute inappropriate behavior. Students are
