Global awareness is knowledge of the interrelatedness of local, global, and international cultures. It is the understanding that our world is an interconnected system. Cultivating global awareness involves the ability to understand, respect, and get curious about challenges, trends, and systems present on a global level. College of Education and Liberal Arts Educator Preparation Programs foster global awareness by preparing and empowering teacher candidates to integrate that knowledge in their PreK - 12 classrooms. Global awareness, according to Common Sense Education¹, is “about working to understand a region’s geography, resources, history, economy, religions, and languages in order to gain insight into varying perspectives and ways of being and thinking

that engage and create learning opportunities for them to meet high standards.

Learning Activities/Performance Tasks

- Learning module on cultural and linguistic differences
- Social Issues Activity

Candidates use their understanding of child growth and development, individual differences, and diverse families, cultures and communities to plan and implement inclusive learning environments that provide each child with equitable access to high quality learning experiences that engage and create learning opportunities for them to meet high standards.

Learning Activities/Performance Tasks
