Video Analysis - Questioning Strategies
Direct and Indirect Instruction
PRAXIS Prep

Signature Assessment - Blended Learning Unit CREATE 3 Lesson Plans - include Strategies for Learning

Learning Outcome 4 – Candidates will successfully integrate technology into lesson planning and assessment

Learning Activities/Performance Tasks:

- 1. Explain the benefits of teaching with technology.
- 2. Identify 21st century learning technologies and how they can be used in the classroom.
- 3. Discover how to promote higher order thinking with the use of technology.
- 4. Explain how to assess the effectiveness of technology.
- 5. Identify the difference between a norm-referenced test and a criterion-referenced test.
- 6. Assess whether or not a test measures what it sets out to measure.
- 7. Understand the use of diagnostic assessments.
- 8. Identify the characteristics and purpose of a performance test.
- 9. Learn to u

USA- InTASC Model Core Teaching Standards (2011)

Standard: Standard #1: Learner Development. The teacher understands how children learn and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

Performance:

1(b) The teacher creates developmentally appropriate instruction that takes into and that enables each learner to advance and accelerate his/her learning.

Performance:

1(c) The teacher collaborates with families, communities, colleagues, and other professionals to promote learner growth and development. **Standard #2**: Learning Differences The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

Performance:

2(e) The teacher incorporates tools of language development into planning and instruction, including strategies for making content accessible to English language learners and for evaluating and supporting their development of English proficiency.

Performance:

2(f) The teacher accesses resources, supports, and specialized assistance and services to meet particular learning differences or needs.

Essential Knowledge:

2(g) The teacher understands and identifies differences in approaches to learning and performance and knows how to design instruction

Essential Knowledge:

2(h) The teacher understands students with exceptional needs, including those associated with disabilities and giftedness, and knows how to use strategies and resources to address these needs.

Essential Knowledge:

2(i) The teacher knows about second language acquisition processes and knows how to incorporate instructional strategies and resources to support language acquisition.

Standard: Standard #7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

Essential Knowledge:

7(i) The teacher understands learning theory, human development, cultural diversity, and individual differences and how these impact ongoing planning.

Essential Knowledge:

		i
Performance Indicator:		
b. address the diverse needs of all learners	by using learner-centered strategies and providing equitable access to appropriate digital tools	
and resources

Designing Student Assessments

NCTE 1,2 NCSS 3,4 NSTA 2,3,5 NSTM 3,5 assessing student learning contains no clear criteria or standards, is poorly aligned with the instructional outcomes, or is inappropriate to many students. The results of assessment have minimal impact on the design of future instruction.

Selecting Instructional Goals

NCTE 1,2,3,4,5 NCSS 1,2,3,4,5 NSTA 1,2,3,4,6 NSTM 2,3,6 represent trivial learning, are unsuitable for students, or are stated only as instructional activities, and they do not permit viable methods of assessment.

VALUE. SEQUENCE, AND ALIGNMENT -Outcomes represent low expectations for students and lack of rigor. They do not reflect important learning in the discipline or a connection to a sequence of learning.

CLARITY - Outcomes are either not clear or are stated as activities, not as student learning. SUITABILITY FOR DIVERSE LEARNERS -Outcomes are not suitable for the class or are not based on any assessment of student needs. has made no attempt at coordination or integration.

SUITABILITY FOR DIVERSE LEARNERS - Most of the outcomes are suitable for most of the students in the class based on global assessments of student learning. SUITABILITY FOR
DIVERSE
LEARNERS - Most of
the outcomes are
suitable for all students
in the class and are
based on evidence of
student proficiency.
However, the needs of
some individual
students may not be
accommodated.

opportunities for both coordination and integration.

SUITABILITY FOR DIVERSE LEARNERS -Outcomes are based on a comprehensive assessment of student learning and take into account the varying needs of individual students or groups.

Standards

Materials and resources are not suitable for students and do not support the instructional outcomes or engage students in meaningful learning.

INSTRUCTIONAL GROUPS -Instructional groups do not support the instructional outcomes and offer no variety.

LESSON AND UNIT STRUCTURE -Instructional groups are varied as appropriate to the students and the different instructional outcomes. There is evidence of student choice in selecting the different patterns of

		LESSON AND UNIT STRUCTURE - The	
		structure is clear and allows for different pathways according to diverse student needs. The progression of activities is highly coherent.	

students.

KNOWLEDGE OF PREREQUISITES -

practice display little understanding of prerequisite relationships important to student learning of the content.

KNOWLEDGE OF CONTENT-RELATED PEDAGOGY -Teacher displays little or no understanding of the range of pedagogical approaches suitable to student learning of the content. with the important concepts in the discipline but may display lack of awareness of how these concepts relate to one another.

KNOWLEDGE OF PREREQUISITES -

practice indicate some awareness of prerequisite relationships, although such knowledge may be inaccurate or incomplete.

KNOWLEDGE OF CONTENT-RELATED PEDAGOGY -

practice reflect a limited range of pedagogical approaches or some approaches that are not suitable to the discipline or to the students. THE DISCIPLINE Teacher displays solid
knowledge of the
important concepts in
the discipline and how
these relate to one
another.

KNOWLEDGE OF PREREQUISITES -

practice reflect accurate understanding of prerequisite relationships among topics and concepts.

KNOWLEDGE OF CONTENT-RELATED PEDAGOGY -

practice reflect familiarity with a wide range of effective pedagogical approaches in the discipline.

Essential Knowledge:

4(k) The teacher understands common misconceptions in learning the discipline and how to guide learners to accurate conceptual understanding.

Essential Knowledge:

4(1) The teacher knows and uses the academic language of the discipline and knows how to make it accessible to learners.

Essential Knowledge:

Essential Knowledge:

4(n) The teacher has a deep knowledge of student content standards and learning progressions in the discipline(s) s/he teaches. **Standard #7**: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

age group.

KNOWLEDGE OF THE LEARNING PROCESS - Teacher sees no value in understanding how students learn and does not seek such information.

Essential Knowledge:

4(k) The teacher understands common misconceptions in learning the discipline and how to guide learners to accurate conceptual understanding.

Essential Knowledge:

4(1) The teacher knows and uses the academic language of the discipline and knows how to make it accessible to learners.

Essential Knowledge:

4(m) The teacher knows how to integrate culturally relevant content to build on

Essential Knowledge:

4(n) The teacher has a deep knowledge of student content standards and learning progressions in the discipline(s) s/he teaches.

Standard: Standard #7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

Essential Knowledge:

7(g) The teacher understands content and content standards and how these are organized in the curriculum.

Essential Knowledge:

7(h) The teacher understands how integrating crossdisciplinary skills in instruction engages learners purposefully in applying content knowledge.

Standard: Standard #5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

Essential Knowledge:

5(i) The teacher understands the ways of knowing in his/her discipline, how it relates to other disciplinary approaches to inquiry, and the strengths and limitations of each approach in addressing problems, issues, and concerns.

Essential Knowledge:

5(j) The teacher understands how current interdisciplinary themes (e.g., civic literacy, health literacy, global awareness) connect to the core subjects and knows how to weave those themes into meaningful learning experiences.

USA- NSTA Preservice Science Standards (2012)

Standard:

NSTA Standard 2: Content Pedagogy. Effective teachers of science understand how students learn and develop scientific knowledge. Preservice teachers use scientific inquiry to develop this knowledge for all students.

Element:

2a) Preservice teachers will plan multiple lessons using a variety of inquiry approaches that demonstrate their knowledge and understanding of how all students learn science

Element:

2b) Preservice teachers will include active inquiry lessons where students collect and interpret data in order to develop and communicate concepts and understand scientific processes, relationships and natural patterns from empirical experiences. Applications of science-specific technology are included in the lessons when appropriate.

Element:

2c) Preservice teachers will design instruction and assessment strategies that confront and address naïve concepts/preconceptions.

knowledge, and language proficiency and does not indicate that such knowledge is valuable.
